

Concepts in Program Management (Adv Dip PM)

SUMMARY

Concepts in Program Management is a 3-day workshop style course designed for senior project managers and program managers who provide leadership to project teams, direct multiple projects and manage programs or portfolios of work. Participants will be experienced in managing large and complex projects and being held accountable for business outcomes.

The workshop focuses on the nine knowledge and competency areas within a framework of effective stakeholder management, project and program governance, benefits identification, management and realisation. The course also introduces several concepts in project and program leadership including building high performance teams, coaching, negotiations and conflict management, and communicating to influence and persuade.

The course is aligned with the competencies required to attain the Advanced Diploma of Project Management and helps prepare participants to apply for certification as Master Project Director (MPD).

WHO SHOULD ATTEND

This course is designed for project leaders: senior project managers, program managers and business managers. Participants are currently working at senior levels in project-driven organisations. They are entrusted with complex and strategically important initiatives and are accountable for business outcomes and results.

Participants ideally have a Diploma in Project Management or equivalent experience and a working knowledge of PMBoK® or equivalent recognised standard.

QUALIFICATION PATHWAY

This course prepares participants to undertake assessment for the Advanced Diploma of Project Management (AQF: BSB 60904). The blueVisions AQF Assessment Program is designed to coach participants through the process of preparing a portfolio of evidence for assessment. Successfully completing the program earns participants the Advanced Diploma of Project Management.

Participants are eligible to apply for professional certification as a Certified Practising Project Director (CPPD) with the Australian Institute of Project Management

COURSE OUTLINE

- Competencies of effective senior project managers and program managers
- Effective stakeholder management
- Governance and effective project delivery cultures and “systems”
- Managing benefits and successful outcomes
- Leadership and management styles

SCHEDULE & FEES

The course is run regularly in Sydney and on-demand in other state capitals. Contact blueVisions for dates and fees.

KEEPING YOUR CERTIFICATION CURRENT

Concepts in Program Management is worth 60 CPD points to participants with a current AIPM certification.
