Talent

- Professional Manpower Outsourcing & Recruitment

Our Strength is in the Overlap

Different Attitude Better Results

- **Size Matters** when you need large enough for strength but small enough for care. Our directors and senior experts are involved daily on projects.
- **International Best Practice** is ingrained in what we do and we have trained many industry giants in it too.
- **Real Experience Produces Better Results.** Our tried and proven expert systems and approaches regularly achieve success on some of the most challenging international projects.
- **Certainty** is achieved through our superior understanding of risk and our discipline in application.
- **Excellence** comes from our consistency and innovation internally and on our client projects, backed by our culture of customer care and long-term relationship and trust building.
- **Our Promise** to achieve success for every client on every role, every time is consistently delivered.
- **Our Values** of Passion, Commitment, Integrity and Empathy as created by our founders drive our business model daily.

Industry Challenges

We provide the leadership and discipline to overcome typical industry challenges:

- Complex capital works programs and projects planned under ambitious constraints (scope, time, cost, risks, resources, technology)
- Constant environment of change to program and project requirements
- Communication deficiencies that reduce performance
- Lack of discipline to plan accurately
- Industry systems that have fallen behind
- Experienced individuals working within ineffective teams
- Complex contract arrangements that impose significant risks and penalties
- Claims and disputes that consume corporate resources and divert focus
